Distance Learning Course: BIO 111.71P/C General Biology I

Course format: Internet

Textbook: Campbell Biology ISBN# 0321558146

Instructor Information:

Name: Bonnie Glass

Office phone number: 252-916-8321

E-mail address: bonnie.glass@piedmontcc.edu

Office hours (if any) and location: Adjunct

Course Prerequisites/Corequisites: RED 090 and MAT 070

Are campus visits required? Yes

Testing is completed: Combination

Is there any additional software required for this course? Yes

If yes, what is the software?

Do course assignments require use of supplements bundled with the textbook? Yes

Additional comments/preferences/suggestions: General Biology I is a challenging course to take online. It is a 4 credit hour, in depth course and requires time and self-motivation. It is not recommended that this be a student’s first online course. Students will complete interactive online labs, participate in discussion forums and chats, and take weekly chapter quizzes. Students are also required to take a proctored exam on campus or at an approved proctored location.
