

ACCOUNTING AND FINANCE

Associate in Applied Science | Diploma | Certificate

The Accounting curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting profession. Using the "language of business," accountants assemble and analyze, process, and communicate essential information about financial operations.

More about ACCOUNTING

In addition to course work in accounting principles, theories, and practice, students will study business law, finance, management, and economics. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting positions in many types of organizations, including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies. With work experience and additional education, an individual may advance in the accounting profession.

Outlook for EMPLOYMENT

There are many traditional careers for graduates of an Accounting program at PCC.

- Tax Preparers**
- Billing and Posting Clerks**
- Business Bookkeeping**
- Payroll**
- Brokerage**
- Statistical Assistants**

or dive into a more specialized area of expertise with:

- International accounting**
- Forensics**
- Comptroller**
- Chief Financial Officer**
